

Texas Department of Transportation

April 5, 2006

To Whom it May Concern:

I've been Roman Haliziw's manager at TxDOT-Aviation Division for the first 3 months of 2006. He has been working as a temporary contract employee tasked with converting and updating our Texas Airport Directory from PageMaker to Adobe InDesign CS2. This document includes listings for each of the nearly 400 general aviation facilities in Texas along with supplemental reference information.

In addition to his desktop publishing efforts, Roman has helped update many of the CAD files that support this directory.

Roman has proven to be an enthusiastic employee with reliable work habits. He requires little direct supervision and has been able to bring this project to a successful completion. His creative talents have greatly improved the overall appearance and readability of the directory.

I'd be happy to have Roman do more work for us in the future.

Sincerely,

A handwritten signature in blue ink, appearing to read "G. Miller", is positioned above the typed name.
